Buddy\_Cups

## **Code of Conduct for Buddy\_Cups Community (2021)**

### **To: Uplift, Inspire and Be**

1. Always be kind and courteous towards other Buddy\_Cups Community members. We are all in this together and aim to create a welcoming environment. We should treat everyone with respect. Different opinions and views are natural, but kindness and empathy are required when expressing opinions and listening to others.
2. No hate speech or bullying – we have a zero-tolerance policy. Bullying of any kind is not allowed and degrading comments about things including age, race, religion, culture, sexual orientation, gender, or identity will not be tolerated.
3. Please do not ask for medical advice from the group. Please always seek face to face medical advice on health concerns from your GP or breast care nurse.
4. No advertising, promotional posts or spam on media forums unless approved by admin of the site or during the event.
5. Respect everyone's privacy – Being part of this Community requires mutual trust and a safe place to be. Authentic expressive discussions make groups great but please remember that information shared can be sensitive and private, so what is shared in this Community stays in the Community (unless it is a safeguarding concern – see policy).
6. Please do not take photos or videos of Buddy\_Cups Community members without prior permission of the Trustees and individuals concerned. Also do not repost photos/videos in other forums without permission from Trustees and people involved.
7. Administrators of Buddy\_Cups social media sites have the right to remove anything that is deemed harmful or disrespectful to the Community or other groups.
8. Please contact a Trustee if you ever feel unsafe or that the code of conduct has been breached by anyone in the Community.

Thank you for your support.  
Buddy\_Cups Trustees
